ICEHOTEL

BY ICEHOTEL

A pure Torne River moment
anywhere in the world

ICEHOTEL works purely with 100% natural ice from the Torne River in Jukkasjärvi, Sweden. The splendour of natural beauty is an inspiration to us – each block carries a unique story with them that can never be found in artificial ice. We design and produce a variety of ice items on behalf of clients, and many tons leave our storage in Jukkasjärvi each year. This way, people in other parts of the world can also enjoy this crystal of the Arctic.

We are proud to share this genuine beauty
with our guests and clients.
