ABOUT ICEHOTEL

AS A WEDDING DESTINATION

GETTING MARRIED AT ICEHOTEL

Many of the couples that get married at ICEHOTEL prefer our hand-picked wedding package, but we also offer the possibility to add products to your package, subject to availability. No matter which option you go for, you will be in safe hands with one of our wedding coordinators who has local knowledge and will guide you through all the important details for your big day.

THE CEREMONY HALL

Our annual Ceremony Hall is located inside ICEHOTEL, and is made completely from ice and snow. Built each winter in a new guise with hand carved art made by carefully selected artists, it is ephemeral and one of the most unique wedding venues you can find. The ceremony hall may melt in the spring and return to the river, but the love that was shared there is eternal.

WINTER WEDDING DRESS CODE

Snowmobile suits or traditional wedding attire, you decide! Our general advice is to dress warm and wear layers. Included in our wedding packages are premium outer winter clothing that we recommend your guests wear during the ceremony.

OUR WEDDING PHOTOGRAPERS

INCLUDED IN THE ARCTIC WEDDING PACKAGE

REBECCA LUNDH is from Kiruna and loves to document love: To meet people and to capture their emotions in her photos.

Her approach to the weddings she photographs is different each time. During a wedding day she focuses on both capturing the classic wedding portraits, but also catch the small details - emotional moments and funny moments - during the day that are unique for just that wedding. Rebecca photographs weddings as they are, without directing too much, but still make sure that the lighting, the surroundings and the poses are captured in the best way possible.

ASAF KLIGER is one of the two resident wedding photographers at ICEHOTEL. He's all about capturing the excitement and joy of your big day, with a passion for turning love-filled moments into beautiful memories.

With more than 15 years of experience as a destination wedding photographer Asaf has been traveling all around the world to capture couples on their big day.
