

CONFERENCE AT ICEHOTEL

ICEHOTEL®

MEETINGS AT ICEHOTEL

CHANGE THE POOL for a dip in the Torne river, nightlife for dancing under the northern lights and traditional hotel rooms for overnight stays amongst ice art – everything is possible at Icehotel. You get to experience a meeting place that inspires and you will explore award-winning meals, untouched wilderness and magical art made of ice and snow – all year round.

For as long as we have known, people have gathered around the fire to connect and exchange stories. Here in Jukkasjärvi, people have met from all over the world and created new memories together since 1989, but the meeting tradition in the village goes back further than that. Jukkasjärvi is a historic marketplace where

people have met and exchanged experiences since time immemorial. We believe that creative ideas are more important than ever. At Icehotel, a large part of the meetings have always taken place outdoors and there is plenty of space here in our arctic surroundings.

We offer ready made conference packages that will let you meet among original art, under arctic lights and in activities close to nature. Whether it is a smaller meeting, a kickoff or conference that you are planning, Icehotel has something that suits your group, choose one of our ready-made packages or tailor your own alternative.
